

TELMAR NETWORK TECHNOLOGY REMOTE TECHNICAL SUPPORT

TECHNICAL EXPERTS AVAILABLE 24/7 WORLDWIDE

Telmar Network Technology provides critical technical assistance for our Extended Life product lines and non-Telmar products 24 hours a day, seven days a week. We offer support with flexible Service Level Agreements (SLAs) and the best support structure to help you maintain your network.

Telmar offers multiple packages for SLAs:

UNLIMITED

- Discounts for longer contract periods
- Package pricing based on network element type and quantity
- Two types of offerings
 - CTAC only
 - CTAC and R&R bundle

LIMITED

- Limited number of calls and/or repairs
- Ability to spread calls/repairs up to three years
- Three types of offerings
 - CTAC only
 - CTAC and R&R bundle
 - CTAC and R&R event package

Telmar's 24/7/365 operation currently provides complete Customer Technical Assistance Center (CTAC) support, including:

- Tracking of work effort in Oracle Trouble Ticketing system (CTRACS)
- Support remotely "on call" service, consulting and troubleshooting
- Manage trouble resolutions with customer as a single interface
- Manage troubles in accordance with SLAs
- Supply for products deployed globally

Telmar has nearly 7,000 square feet of fully dedicated lab space which offers one of the industry's most flexible and robust support operations. Telmar has a full complement of platforms supported with our state-of-the-art lab hardware.
