

SOLUTIONS THAT EXTEND THE LIFE OF YOUR ENTERPRISE NETWORK AND INVESTMENTS

In this fast-moving world of technology, it is almost impossible to keep up with the newest communications and network solutions or applications. You've already made significant investments in your existing network and communications equipment, so now you need peace of mind that you can focus on your business and not have to worry about upgrades or build outs. The tough economic times probably also have you maintaining the network you have in place, while preserving your company's cash. So what do you do when you need to upgrade or require maintenance of your equipment so you can continue to service your customers' needs? Turn to Telmar Network Technology for our high-quality, cost-effective Unified Communications solutions.

Telmar Network Technology's Unified Communications solutions extend the life of your products by repairing current faults, replacing deficient components, testing to OEM specifications, and backing refurbished systems under a new warranty for up to three years. If you need your repairs in a hurry, we offer Same-Day Repair and 24-Hour Advance Exchange because it's critical to ensure your business is able to function and communicate with its customers and employees. Our repair services are backed by years of experience, qualified, OEM-trained technicians, and services performed in our state-of-the-art repair facilities.

Telmar works with and offers certified pre-owned and new equipment from leading manufacturers including but not limited to:

- Nortel
- Avaya
- Mitel
- Polycom
- Siemens
- Alcatel-Lucent
- NEC
- Samsung
